

Schedule for the Balance of Payment statistics

Report Name	Release date	Information sources	Explanatory note
Monthly preliminary Balance of Payments	Within the succeeding month	<p>Due to the importance of b.o.p, preliminary estimates have been compiled on a monthly basis since 2009.</p> <p>Monthly estimates cover limited information sources, which are monthly reports, surveys, and estimations.</p>	<p>Monthly preliminary estimates are revised upon the time of quarterly b.o.p release. For example:</p> <ul style="list-style-type: none"> - When releasing first quarter, Jan, Feb and March, - When releasing second quarter, Apr, May and June, - When releasing third quarter, July, Aug and Sep, - When releasing fourth quarter, Oct, Nov and December's preliminary estimates are revised.
Quarterly Balance of Payments	Within 15 th of the second month of succeeding quarter	Quarterly statistics are compiled after receiving, monitoring, and making additional estimations on public and private enterprises` reports.	All four quarters` statistics are revised upon the time of Annual b.o.p release.
Annual Balance of Payments	Within 30 th of April of succeeding year	<p>When annual reports of public organizations (Customs records, Budget utilization, etc.) are released, the corresponding changes are reflected in annual b.o.p.</p> <p>Furthermore, revise the deficient or miscalculated information and reflect the new information, which is collected after the release of quarterly statistics.</p> <p>Also, new survey results and estimations are reflected and technical errors are revised in a corresponding quarterly b.o.p.</p>	In case new methodologies are introduced, results of surveys are required to be reflected, and other official statistical methods are changed, up to 5 years of Balance of Payments statistics may be revised.
